PROFESSIONAL SUMMARY

Computer Engineering student seeking a Website Development Internship, with hands-on experience developing responsive websites, web applications, and landing pages using HTML, CSS, JavaScript, WordPress, and Next.js. Experienced in building practical web applications with user-focused interfaces, APIs, databases, automation, and backend technologies. Strong problem-solving skills demonstrated through projects, internship experience, and hackathon achievements.

WORK EXPERIENCE

AI Intern | NoviTech R&D Pvt Ltd *Oct 2024 – Dec 2024*

- Gained hands-on learning and practical experimentation with OpenCV, Computer Vision, NLP, face detection and recognition, and Machine Learning concepts.
- Applied AI/ML concepts through practical exercises, working with computer vision and natural language processing techniques during the internship.

PROJECTS

AgroRent — Equipment Rental Platform

Python, Flask, HTML, JavaScript, AI/ML, Automation

- Developed a responsive, user-friendly web application with a recommendation system, smart search/filtering, chatbot, and WhatsApp automation for affordable farm machinery rentals.

ARRA — Autonomous Railway Response Architecture

Python, Flask, Next.js, SQLite, WebSockets, Gemini AI

- Built a full-stack web application with backend/API development, database integration, and a real-time dashboard interface for railway incident monitoring, using WebSockets and AI-powered incident response.

AetherSense AI — FinTech Attack Detection Platform

Python, Flask, Next.js, SQLite, WebSockets, Gemini AI

- Developed an AI-powered web application with backend/frontend and database integration, featuring a real-time monitoring dashboard and ML-based anomaly detection for FinTech fraud/attack threat analysis.

WEB DESIGN & DEVELOPMENT PROJECTS

Vini Cakes — Business Landing Page | Freelance Web Project

- Designed and developed a responsive business landing page focused on product showcasing, clear navigation, visual presentation, and user experience.

Mukbang Cafe — Website Concept | Independent Web Design Project

- Designed and developed a responsive cafe website concept focused on branding, menu presentation, navigation, visual consistency, and UI/UX; built independently as a demonstration of web design and development skills.

TECHNICAL SKILLS

Programming: Python, C++, C
Web Development: HTML, CSS, JavaScript, WordPress, Next.js
Backend: Flask, Django, SQLite, WebSockets, APIs
AI & Data: Artificial Intelligence, Machine Learning, Pandas, NumPy, Exploratory Data Analysis (EDA)
Cloud: Google Cloud, Cloud Run Functions, App Engine, API Gateway
Tools: Git, GitHub, VS Code

CERTIFICATIONS & CREDENTIALS

NPTEL Certification – Database Management System
Google Cloud Skill Badges (Google Cloud | Credly): Deploy and Secure Serverless APIs with API Gateway; Build Serverless Applications with Cloud Run Functions; Manage Applications on App Engine; Develop GenAI Apps with Gemini and Streamlit.
Google Cloud Study Jams 2025
Credly Profile: credly.com/users/parth-mahadik.2a5b3390

HACKATHONS & ACHIEVEMENTS

- 1st Prize — Scitech Innovation Hackathon (₹1 Lakh cash prize); Team Leader & Lead Developer.
- 3rd Prize — EFOS Hackathon; Team Leader.
- Top 10 team — Suprathon, National Level Hackathon.

LEADERSHIP & ACTIVITIES

- **Web Development Lead, GDG:** Led web development activities and contributed to technical learning and knowledge-sharing initiatives.
- **Technical, CORE Committee, Computer Department:** Contributed to technical activities, coordination, and departmental initiatives.
- **Technical Session Speaker/Mentor:** Conducted technical sessions for college students, explaining technical concepts and facilitating peer learning.

LEADERSHIP & SOFT SKILLS

Leadership & Team Management, Communication Skills, Public Speaking & Presentation, Technical Communication, Mentoring & Knowledge Sharing, Teamwork & Collaboration, Problem Solving, Event & Session Coordination.

EDUCATION

Bachelor of Engineering in Computer Engineering *2026 – Present*

Trinity College of Engineering and Research, Pune (SPPU) | Aggregate CGPA: 8.62/10 | Sem 4 SGPA: 8.27
